# MINING, BUSINESS AND STOCKS.

## MARKET WAS WEAK IN SPOTS.

Yankee Con, and May Day Very Agrees to Pay \$15,000 for Jay Strong Today.

GRAND CENTRAL SLUMPS.

Lower Mammoth Softer-Tetro Climb ing-Mammoth Falling Off-Ontario Softening-Ajax Firmer.

Business was quite brisk on the exchange today with 32,350 shares changing hands for \$23,902.87. The most interesting features of this morning's call were the surprising drop in Grand Central and the sharp advance in May Day and Yankee Con. Owing to the feeling that the option on the Grand Central will not be taken up the stock slumped to \$5.87 today. Mammoth was also much weaker today from the same cause. May Day sold up to 95, while Yankee Con, was traded in at \$2.00 on the strength of the purchase of the Humbug claims, thus fulfilling Dr. Franklin's prediction made several weeks ago. Lower Mammoth weakened to \$4.19 today, while Ajax sold up to 1.121/2. Ontario showed some activity at much lower prices than those obtained a few weeks ago. Sales were made today at \$8.50 and \$8.60. Sacramento sold from 40 to 42%, while Showers Con, dropped traded in at 67. Star Con. hung around and Tesora did a little business at Ben Butler was much weaker to day at 10½, while Century sold at \$1.32. Richmond Anaconda released several thousand shares from 20 to 21½. Tetro climbed to 10, while West Morning was traded in at 3. Martha Washington was active at 24. Closing quotations were posted

ARTISTIC JOB WORK Turned out on short notice at the Descret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unexcelled by any establishment in the West,

### COL. WALL BONDS BINCHAM CLAIMS

Gould Nos, 1 and 2.

MAMMOTH OPTION EXPIRES.

Allowed to Lapse for Lack of Time Fine Ore in Yampa-Rattlesnakes at the Mouth of Tunnel.

Col. E. A. Wall has just paid \$1,00 for an option on the Jay Gould claims Nos. 1 and 2, located in Bingham. The option calls for the payment of \$15,000 on or before April 23, 1902. A contract has already been let for 400 feet of work in a tunnel now in about 200 feet. By extending it 400 feet further the olonel aims to intercept the Yampa edge which has opened up so encouragingly in other places. The present deal rounds off the colonel's other possessions in the same locality, consisting of the Key fraction, Khedive and Treasurer claims and known as the Maxwell group.

The option was given by Jerome Bourgart and J. N. Jarrard, of Bingham. The property lies between the Yampa Extension and the Alamo group.

MAMMOTH OPTION. Has Been Relinquished Because of Lack of Time.

The Mammoth mine will not be sold. at least not through the Bambergers, who recently secured an option on Sam-uel McIntyre's holdings at about \$3 per The option expires today and it was learned from absolutely reliable sources this afternoon that the option has lapsed. The report of Expert Neill was very full and complete, but there was not time for its transmission to the Eastern parties who have contemplated the purchase of the property.
A synopsis was telegraphed East last Saturday, but the full report has not left Mr. Bambberger's office, owing to the lack of time. The impression was quite general that the deal would not go through as was evidenced by the quotation on Mammoth stock this morning.

HIGH GRADE COPPER. Big Body of Seven per Cent Ore

Found in the Yampa. The cheerful news comes from Bingham that a big body of high grade ore has been encountered in the Yampa claim at the depth of 250 feet from the surface. For some time the face of the tunnel has been in a grade of ore carrying a large quantity of iron pyrites and about 4 per cent copper. This has now been replaced by ore assaying 7 per cent in the red metal. Col. Wall, who recently sold the property to the Tintic Mining and Development company, feels exceedingly cheerful over the indi-cations which promise another big bonanza before the expiration of many months. The colonel visited the ground yesterday and reports that the compressor will be ready for business by the 1st of the month.

The Honorine Strike. Manager Scheu, who has charge of the development work at the famous Honorine of Stockton, came in from camp last night after spending upwards of a week at the old bonanza. When questioned regarding the outlook in the lower tunnel Mr. Scheu said he was not prepared to discuss the situation just now. Samples of ore were seen which carried copper and white iron in large quantities. There is no doubt that the long expected chute has been cut, but nothing is announced as to the value of the ore. It is probable that only the iron capping has been cut, but, however this may be. Mr. Ellis T. Browne says the values are disappointing thus far. The samples seen today seemed to carry very good values in

Mining Among Rattlesnakes. W. D. Murphy, who is in charge of ork at the Dalton & Lark tunnel, came in from camp jast night with an unusual story for a Bingham miner. It appears that the big drain tunnel, which is now in 445 feet, has been started by the side of a nest of rattle-snakes, which are just now filling some of the men with so much fear that they are talking of seeking "fresh fields and pastures new." None of the men mind a few rattlesnakes, but thirty rattlers a day is too much for the peace-loving miners. Among the interested parties at the mouth of the tunnel is the lady who runs the boarding house. Her record of the snakes killed shows that the fun of the snakes killed shows that the fun has waxed fast and furious in the past few days. The total killed this week is 151 and they are still rolling out from under the big rocks in bunches of from six to ten. Mr. Murphy does not an-ticipate that they will stop work in the tunnel but if they keep coming at the present rate they will probably make him short handed.

Petitions for Sale of Speculator. Butte, Mont., April 25 .- Mrs. Lulu

Largey, administratrix of the estate of the late P. A. Largey, made application yesterday to partition and sale of the Speculator mine.

Ogden Con. Company Incorporates.

Special Correspondence, Special Correspondence,
Ogden, Weber Co., April 25.—Articles of incorporation of the Ogden Consolidated Mining and Milling company were filed yesterday with the county clerk. The principal place of business of the corporation is to be Ogden City Utah; it is incorporated for the period of fifty years. The capital stock of the corporation is \$37,500, divided into 750,000 shares of the par value of 5 cents per share. The capital stock has all been subscribed for with the exception of 150,000 shares, which shall ren in in 150,000 shares, which shall rend in it for the purpose of developing their properties. The incorporators and offi-cers of the company and the amount of stock subscribed for by each is as folstock subscribed for by each is as follows: Albern Allen, vice president, 40,600 shares, \$2,030; S. L. Ives, vice president, 50,000 shares, \$2,500; N. H. Ives, secretary and treasurer, 200,000 shares, \$10,000; and they with George F. Seagers, 207,360 shares, \$10,368; E. F. Bratz, 7,500 shares, \$375; A. E. Wrather, by, 24,000 shares, \$1,200; D. H. Insign, 22,500 shares, \$1,25, form the board of directors; P. R. Ives, 48,040 shares, \$2,402. The following mining claims, situated in the Weber mining district, Weber county, are owned by the company; Indiana, Eldorado, May Flower

Weber county, are owned by the com-pany: Indiana, Eldorado, May Flower,

THE CHANGE OF THE PROPERTY OF Sun Flower, Silver Queen, (south side), Colorado and Last Chance. The pur-pose of the comporation is to carry on a general mining business.

#### UNION PACIFIC IS AT 110.

Atchison Stocks Took the Lead in Point of Strength and Activity.

It Was a Railroad Market, Stocks Being in Big Demand - Prices Well Sustained.

New York, April 25 .- Prices of Amerians in the London market had scored some notable advances before the opening here and there were some violent rebounds in the opening transactions from vesterday's level on very heavy dealings in individual stocks. Twentyfive thousand shares of Union Pacific changed hands simultaneously at 4.081/2 down to 107, compared with 10714 at the close last night. The opening sales of Atchison were of 15,000 shares at 691/4 to 70, compared with 671/2 last night. The preferred stock of this company also advanced 14. St. Paul sold at 16914 to 169%, compared with 167% last night on the transfer of six thousand shares. In Baltimore & Ohio the opening sales were 3,500 shares from 99 to par. The close last night was at 97. The stock quickly extended its rise to 5%. There was a wide opening also in Southern Pacific on the sale of 5,000 shares, at an extreme advance of %. Gains of about a point were recorded in Northern Pa-Reading and Amalgamated Copper, but the last named stock quickly receded to below last night's close. The market became very feverish after the openin, Union Pacific recovering over a point from the lowest. Prices generally were easier on the secondary quotations with realizing invited by the Price movements were very irregular, owing to the large demand for some stocks and realizations in others. Most of the railroads which opened at good gains fell back, and Consolidated good gains fell back, and Consolidated Gas and Smelting dipped 2½. On the other hand, Delaware & Hudson, Chi-cago & Alton, Sugar, Chicago & East-ern Illinois, Wisconsin Central, Lake Erie & Western, Tennessee Coal and Colorado Fuel Improved 1% and 3%. The demand for Union Pacific then became so general that it rose to 110 and Southern Pacific got up to 53%. These buoyant outbursts pulled St. Paul, Northern Pacific and the Atchisons to Northern Pacific and the Atchisons to the top again, but the specialties lagged. At 11 o'clock, Union Pacific was ruling near 108, but St. Paul and Atchison were holding well at the top and other stocks were feverish. The Atchison stocks took the lead in point of strength and activity and the common rose 4 points and the preferred 3. St. Paul meanwhile lost a point, while Union Pacific hardened as much. These stocks furnished about the only points of interest in the market until near of interest in the market until near

NOT HEREDITARY

In the main, consumption is not hereditary; it is infec-

Low vital force is hereditary: which gives consumption its chance. An infection starts

Between the two, the crop is a big one: about one-sixth of the human race.

We suppose it needn't be more than 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

noon, when Southern Pacific bounded up again to 54%, compared with yester-day's close of 51%. Notably gains were then made by Eric first and second pre-ferred, Great Northern preferred and St. Paul preferred, the latter two gaining 3. Stock of local corporations was weak, especially Union Gas and Consolidated Gas, which dropped 2% @4% respectively, with a rally of 4 in Consolidated Gas. Rock Island was rushed up 4% before noon with the Atchisons had begun to yield.

had begun to yield. Bonds were strong. The United States Steel stocks got a point or more over last night for the first time during the day, Chicago Great Western advanced 2 and Amalgamated Copper rose over the opening high level with a recovery of 21/2. Prices obbed elsewhere in the market on a moderate volume of business without any sign of urgency in the selling. Northern Pa-cific lost 24 from its best price and cific lost 24 from its best price and Rock Island 24 and the general list from a fraction to 2 points. Brook-lyn Transit rose 2½ over the low point. Some stocks hardened, but others con-tinued to run off and the closing was irregular and moderately active.

He Sells Between Two and Three Million Bushels. Chicago, April 25 .- There were in-

dications on 'change today that George H. Phillips, the young leader of the corn bulls, was changing his interest in corn from May to July. He has been credited with controlling for himself and customers a line of 7,000,000 bushels of May. It has been almost impossible to buy this option during the last few days, but during the forenoon today Phillips sold between two and three million bushels. At the same time he bought heavily for delivery in July which sold from 2 to nearly 3 cents On the May corn sold here is said to have made a profit approximating \$200,000. As a reason for buying the later future, he claimed that corn in July would be worth even more than it is now, owing to depleted country stocks. He pointed to the fact that today's receipts here, 72 cars, are the

smallest in years.

The price fluctuations of the Map op-The price fluctuations of the Map option were violent, but in view of the enormous sales by Phillips indicated great inherent strength in the market. May opened \(\frac{1}{2}\)c lower to \(\frac{1}{2}\)c higher than yesterday at \(\frac{47}{2}\)to \(\frac{48}{2}\)d, and under bidding by Phillips bounded in a few minutes to \(\frac{49}{2}\)c, the highest price of the crop for this delivery. At this positive build leader turned seller. He disposed of nearly a million bushels at posed of nearly a million bushels at about 481/2, and later announced that he would sell any amount at 48. Oth collapse, rushed to unload, and May broke to 4714. Phillips, however, stood his guns and offered no more until a rally to 48c had taken place. The market closed at 48c, the mark set by Phillips.

BOSTON WOOL MARKET.

Boston, April 24.-The American Wool and Cotton Reporter tomorrow will say: Aside from the liberal purchases of fine Australian and Ohio delaine made at the very beginning of the week under review by a well known mill which practically cleans up the supply of such stock in this market, the usual trade has ruled very dull and has presented locally few features of interest. The shies referred to consisted of something like 1,500 bales of Australian, which were taken, it is reported, at prices ranging from 32 to 24c, equivalent to a clean cost of 65@67c. The delaine wools amounted to about 150,000 pounds and the prices paid are understood to

have been 28@29c.
The sales reflect the tendency of the demand towards fine wools, which are relatively much stronger than medium and low wools and they indicate the confidence of consumers in this class of tock on which prices are firmly held. Taking the market as a whole, the purchasing has been mostly of a piecing out character. There is no disposition to anticipate future requirement to any great extent and no speculative tend-ency is noticeable. While trading may be very dull, the tone of the market as far as prices are concerned is very

The sales for the week in Boston imounted to 2,591,000 pounds domestic and 690,000 pounds foreign, making a total of 3,281,000 against a total of 4,108, 000 pounds for the previous week and a total of 2,256,000 for the corresponding week last year. The sales since Jan. 1 amount to 76,123,000 pounds, against 52,-159,200 pounds for the corresponding time last year.
